

Truxim

Divorce Document Starter Checklist

US Edition

Free Foundational Checklist

Phase 1 of the Truxim Method

How to Use This Checklist

This checklist identifies the foundational document categories relevant to divorce preparation in the United States. It addresses only the Document phase of the Truxim Method. Gathering these records improves readiness for professional consultations and supports a more structured approach to the process ahead. Document gathering improves readiness, but preparation does not end with collection.

This checklist addresses the first phase of preparation. The phases that follow focus on organization, clarification, and transition planning.

Document Checklist

Divorce Document Starter Checklist | US Edition | Phase 1

☐ Personal Identification

Government-issued identification for both parties and dependents.

☐ Income and Tax Documentation

Recent income records and tax reporting forms.

☐ Retirement and Investment Accounts

Documentation for retirement plans and investment holdings.

☐ Insurance Coverage Documentation

Health, life, disability, and other active policies.

☐ Business and Ownership Interests

Records reflecting ownership stakes or partnership interests.

☐ Marriage and Legal Records

Marriage certificate and related legal agreements.

☐ Bank and Cash Accounts

Statements for all personal and joint bank accounts.

☐ Real Estate and Property Records

Ownership documents and property-related statements.

☐ Credit and Debt Accounts

Statements and documentation for all outstanding liabilities.

☐ Immigration Documentation

Visa status, residency records, and related filings if applicable.

Not every category will apply. Use this as a framework for gathering the records most relevant to your situation.

Document Collection Is Foundational, Not Complete

This complimentary checklist introduces the first phase of preparation.

Gathering documents establishes the raw material of preparation. It does not, on its own, produce the structured summaries that professionals require to advise effectively.

Collection alone does not create clarity. Consolidation and structured organization transform documents into usable insight.

The full Truxim Divorce Prep System applies all four phases in a structured, integrated format designed for comprehensive preparation.
